

monkeyglasses®

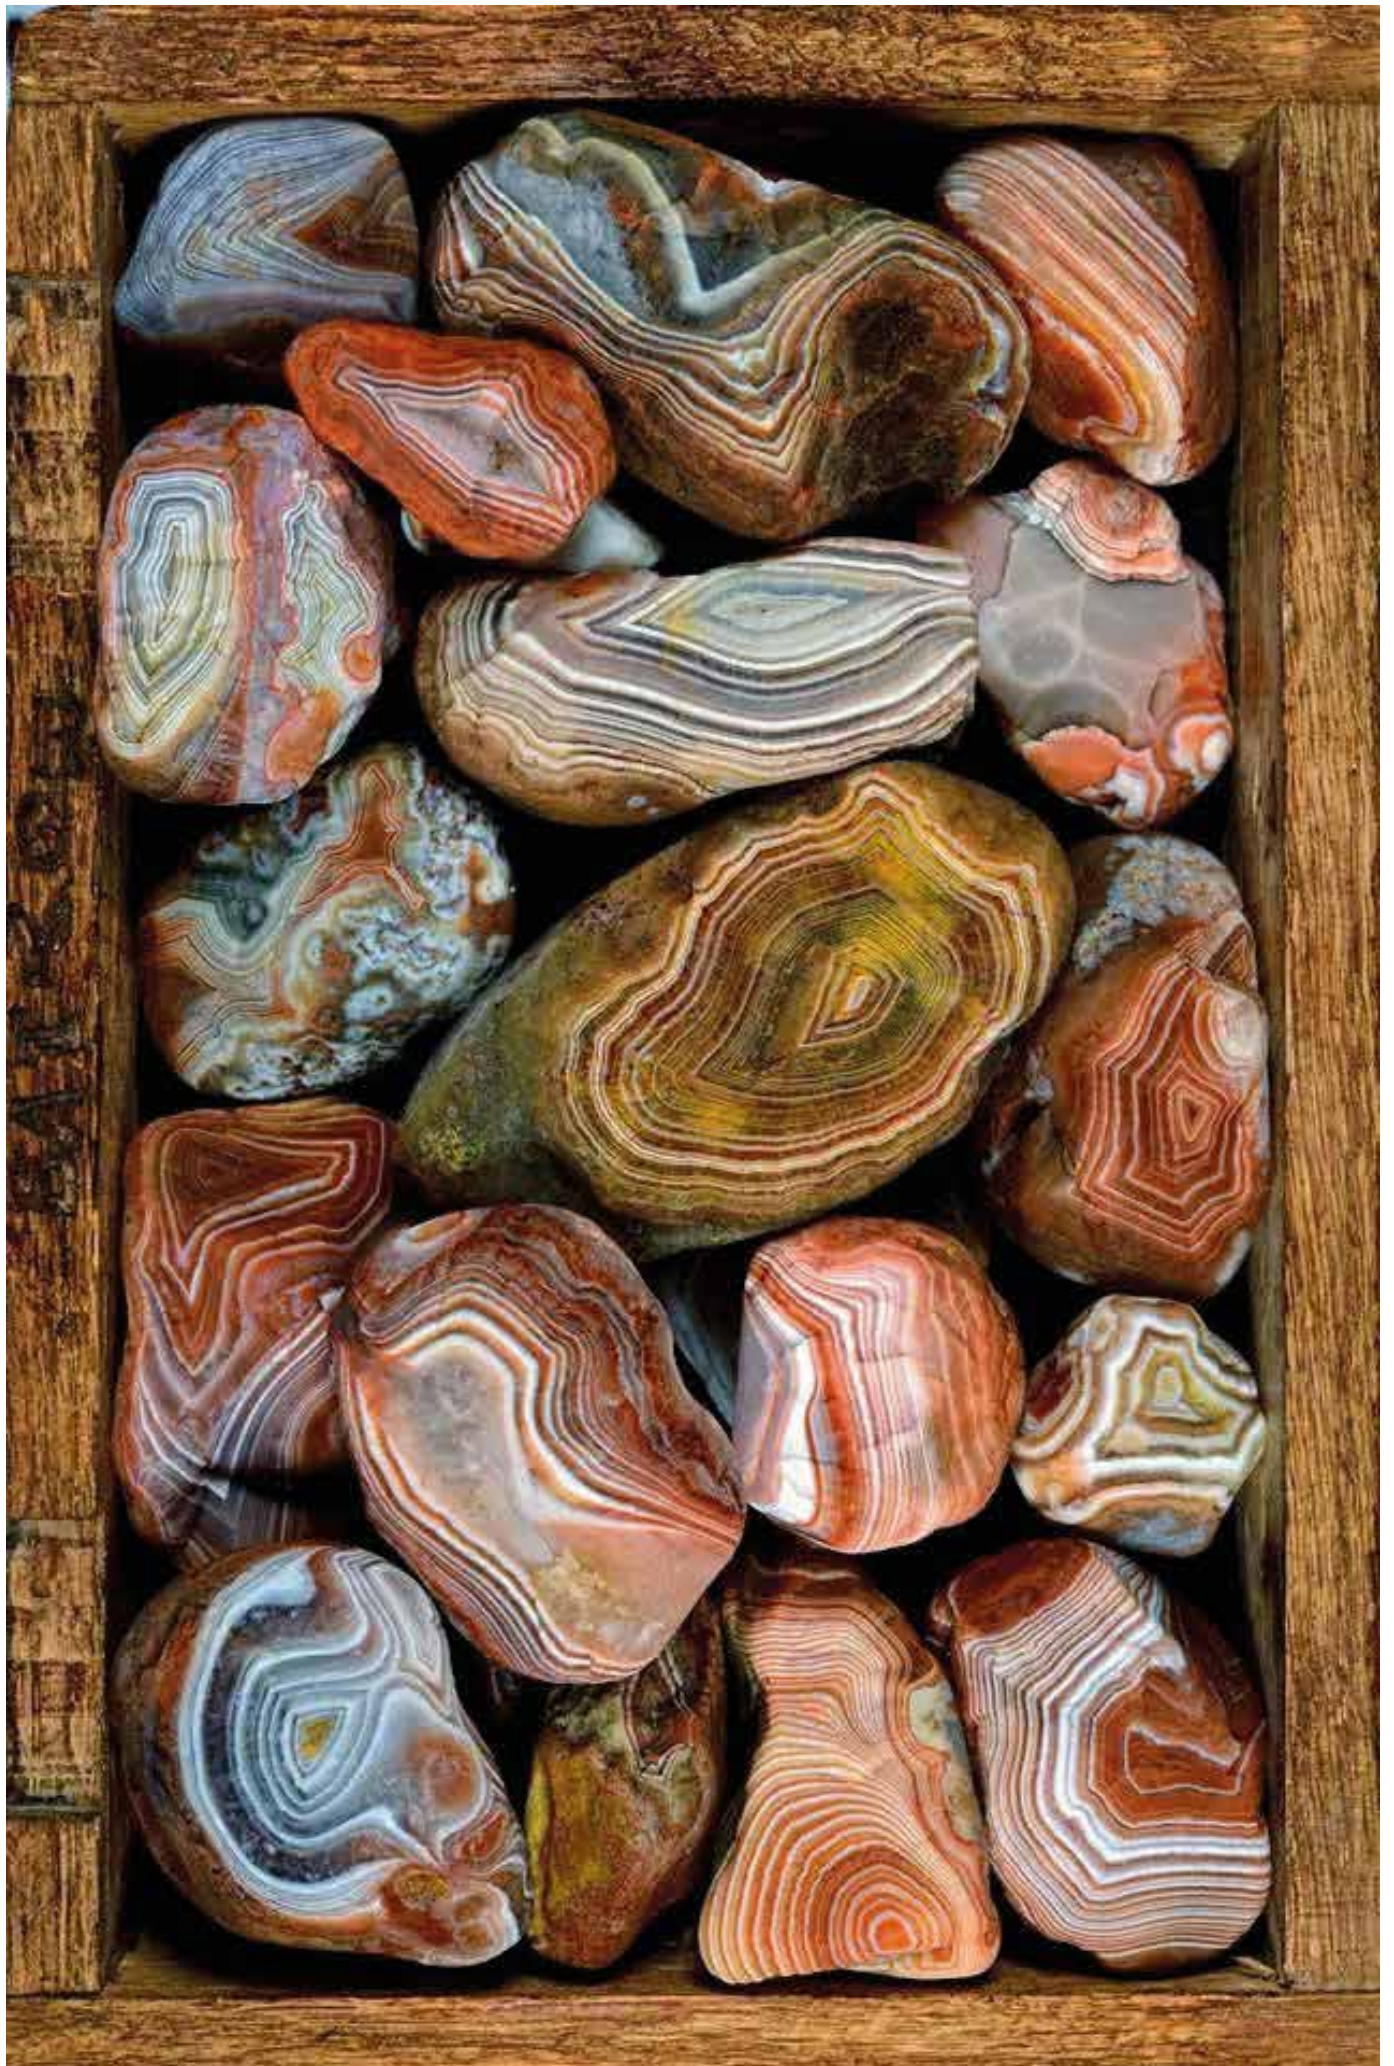

1/2016
MOTHER EARTH

Sustainable monkeyglasses®, have the environment and people in their sights and a focus on zero wastage.

The unique frames are hand made from ECO-friendly cotton fibers, and any production leftovers is recycled into trendy accessories, while old glasses are re-used.

monkeyglasses® support Save the Orangutan.

PRESENTATION BOX

mOnkeyglasses®

Black outside, brown linen inside. Postcard inside.

Big 12 pcs.

Small 5 pcs.

monkeyglasses® support www.SaveTheOrangutan.org

The orangutans need our help urgently. They are an endangered species and only around 50,000 orangutans are left in the wild (UN's latest estimate from 2007). The single biggest threat to their survival is the rapid destruction of the rainforest, mainly caused by the global demand for palm oil.

Save the Orangutan are working to save the orangutan. They do this by rescuing and protecting individual orangutans and by protecting the orangutan's natural habitat, the rainforest.

SUSTAINABLE MONKEYGLASSES

As a company we believe in taking care of our environment and the people who we work with. There is no excuse for not doing our part to reduce the effect we have on our planet.

BIODEGRADABLE COTTON MATERIAL

Most of our glasses are made from acetate – a unique kind of material which consists of approximately 90 % cotton flowers and wood fibers. The raw material is biodegradable and comes from Italy.

ZERO WASTE PROGRAM

We have introduced a ZERO WASTE program, which means that leftover material from our production of glasses is used to make accessories.

Our suppliers

In addition, our suppliers adheres to the United Nations' Global Compact in their production.

WE COLLECT OLD GLASSES

Return your old glasses to us instead of throwing them away. We deliver used glasses to a centre in Trivandrum, India that supports fishing families in need.

100% ORGANIC BAGS

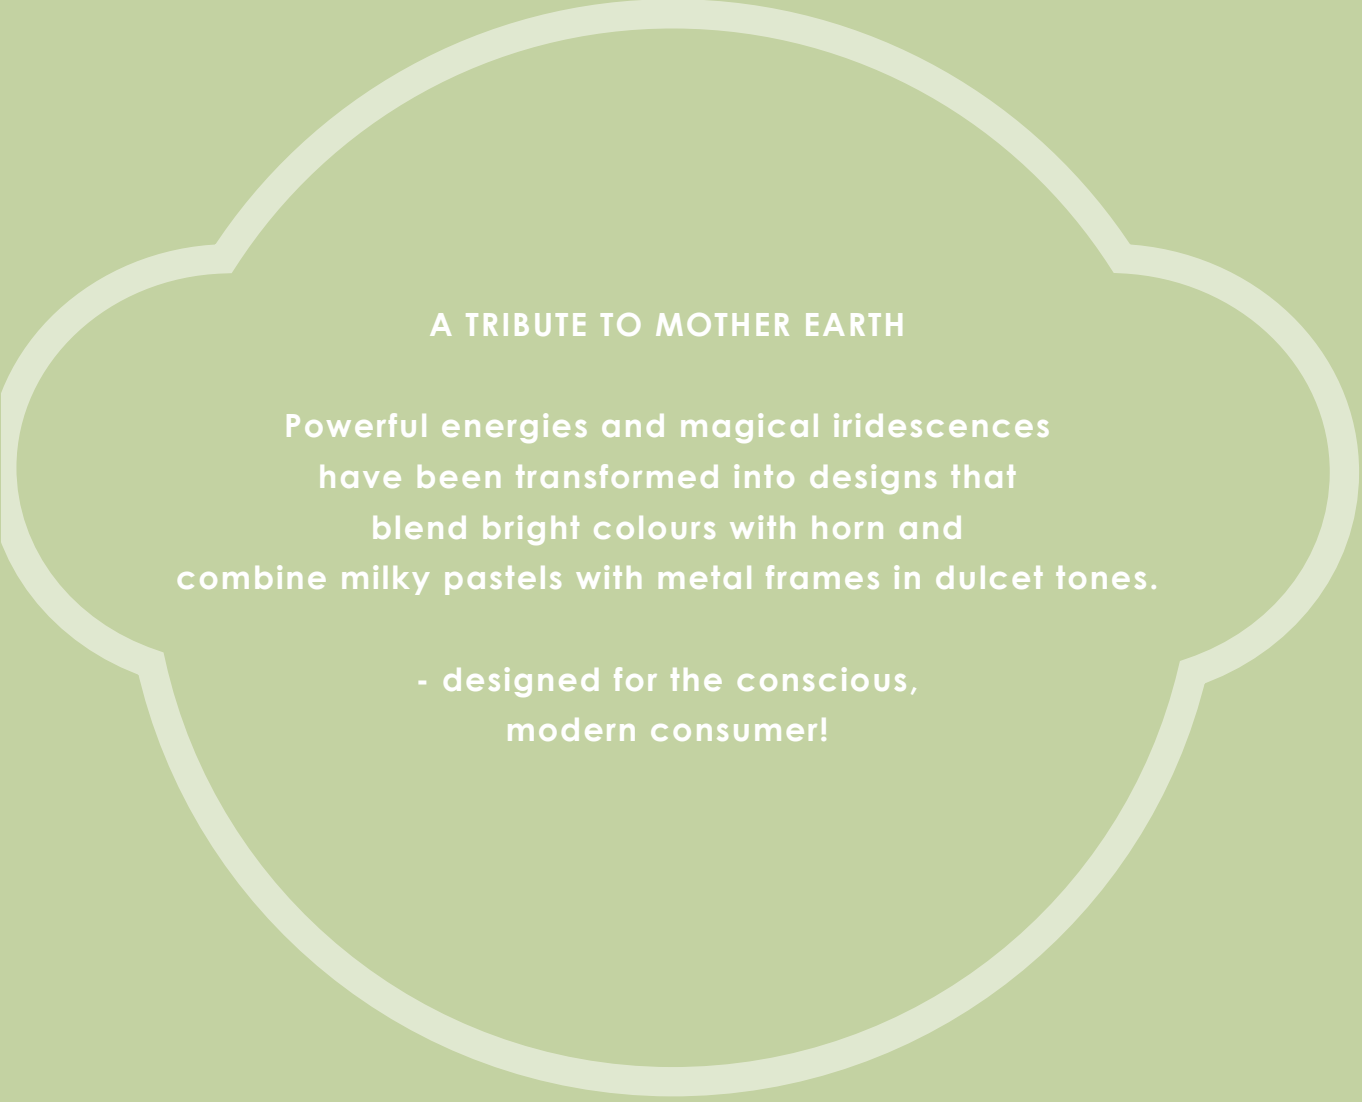

monkey**glasses**® come in a fabric bag made from 100 % organic cotton or in a hard box case, made of cardboard.

WE SUPPORT

monkey**glasses**® help support Save the Orangutan that fights for the survival of the orangutan and their home, the rainforests of Borneo.

A TRIBUTE TO MOTHER EARTH

Powerful energies and magical iridescences
have been transformed into designs that
blend bright colours with horn and
combine milky pastels with metal frames in dulcet tones.

- designed for the conscious,
modern consumer!
